Unit 4

Wild Life

Read the texts about species of birds (A, B and C). Write the correct answer (A, B or C)

A	Crow Crows are intelligent black birds that live almost everywhere in the world. They can recognise faces and even use tools to find food. Crows eat many things, from fruits to small animals. They make loud “caw” sounds to talk to one another. You can often see them flying in groups or looking for shiny objects to collect.	
B	Golden Eagle The golden eagle is one of the largest and fastest birds in the world. It has dark brown feathers with golden feathers on its head and neck. This strong bird can spot a rabbit from far away and dive quickly to catch it. Golden eagles live in mountains and open lands, where they build large nests on cliffs or tall trees.	
C	Lovebird Lovebirds are small, colourful parrots that often stay close to their partners. They have short tails and bright feathers in green, yellow, and red. These friendly birds enjoy chirping and playing together. Lovebirds are often kept as pets because they are easy to train and love company. In the wild, they live in warm parts of Africa and build nests inside tree holes.	

- A** Crow
B Golden Eagle
C Lovebird

- 1 This bird is very clever and can use tools. ()
- 2 This animal has golden feathers around its head and is a fast hunter. ()
- 3 You can often see this bird in pairs, sitting close together. ()
- 4 This bird likes to collect shiny things. ()
- 5 It builds big nests on cliffs or tall trees. ()
- 6 It makes loud “caw” sounds to talk to others. ()
- 7 It is colourful and small, often kept as a pet. ()
- 8 It dives quickly to catch animals on the ground. ()
- 9 It can recognise people's faces. ()
- 10 It lives in warm parts of Africa and enjoys being with others. ()

Answer Key

1	A
2	B
3	C
4	A
5	B
6	A
7	C
8	B
9	A
10	C
