

### Design Your Dream Classroom

#### Objective:

Pupils design their ideal classroom or learning space by combining school subjects, learning tools and simple technology. This activity develops creativity, communication skills, teamwork and problem-solving.

#### Materials needed:

- A3 paper/mahjong paper OR digital design tool
- Colour pencils/marker pens
- Ruler

#### Instructions:

- 1 Work in groups of 3–4.
- 2 Plan and draw your dream classroom.  
Include:
  - Subject areas (e.g. English corner, Science space)
  - Furniture and equipment (desks, whiteboard, projector, computers)
  - A STEAM or creative activity area
- 3 Label all items in English using Unit 5 vocabulary.
- 4 Prepare a 2–3 minute presentation.  
Explain:
  - The name of your classroom
  - Your favourite area
  - How your design helps pupils learn better
- 5 Present to the class. Be ready to answer simple questions from your classmates.

#### Outcome:

By the end of this activity, pupils will be able to:

- describe a learning environment clearly in English.
- explain their ideas confidently.
- demonstrate teamwork and creative thinking skills.
