Detective's strategy: Detective, listen carefully to the suspects. Some of their stories do not match.

- 1 Kevin says he was in the kitchen for five minutes. But Miss May says she was in the dining room next to the kitchen and did not see Kevin.
- 2 Miss May says she opened the water bottle in front of Sir Goh. But the poison was in the glass, not in the bottle.
- 3 Dr Julian says his medical bag was in the closet. But there are scratch marks on the library floor that look like marks from a medical bag.
