Last month, my school had organised a recycling campaign. I was able to contribute some recyclable items during the campaign. Since my sister had piles of old magazines in her room, I told her that I wanted to bring them to school to be recycled. She was happy enough as this cleared up her room a bit. I also brought empty mineral bottles which I collected from my neighbours. I'm very happy to be able to take part in this campaign as it is for a good cause. I hope I am able to do my part for the environment in future.
