When you arrive, you should take a river cruise along the Kinabatangan River. You will see a wide range of wildlife such as macaques, gibbons, hornbills, and occasionally elephants. Subject:	Uses of banana plants
Dear Adila, I'm writing this email to tell you a few uses of banana plants. The banana fruit, which is rich in vitamins and minerals, is nice to be eaten raw or made into fritters, chips, and cakes. The banana leaf can be used to pack food such as <i>nasi lemak</i> and wrap cakes. If you go for any Indian cuisine restaurant, they use banana leaves as platters to serve food. Some people cook the banana flower in soups or curries. That's all for now. Bye. Your friend, Izatie
